CAREER OBJECTIVE

Computer Science Engineering student with hands-on experience in Java programming and full-stack web development. Strong understanding of OOPs, Collections Framework, JDBC, DBMS, Fundamentals. Skilled in building web applications using Java, JavaScript, Node.js, Express.js, MySQL, HTML, and CSS. Passionate about problem-solving and backend development.

EDUCATION

Bachelor of Technology in Computer Science Engineering

Technocrats Institute of Technology; CGPA: 7.60

2022 – 2026

Senior Secondary: Sindhu Vidya Mandir School, Satna

2021 - 2022

78%

High School: Rama Krishna VivekaNanda School, Satna

2019 – 2020

89%

SKILLS

- **Languages:** Java, JavaScript
- **Front-end:** HTML, CSS, Tailwind CSS
- **Back-End:** Node.js, Express.js, Socket.IO, JWT
- **Frameworks:** Spring Boot, Spring Security, Spring Data JPA (Hibernate), REST APIs
- **Core Java:** OOPs, Collections Framework, Exception Handling, Multithreading, Java 8 (Streams), JDBC
- **Databases:** MySql
- **Tools & Platforms:** Git, GitHub, Maven, Postman
- **Soft Skills:** Leadership, Collaboration, Creativity & Innovation, Problem-Solving

PROJECTS

Hospital Management System

Tech Stack: Java, Spring Boot, Spring Security, Spring Data JPA (Hibernate), MySQL, REST API

- Developed a secure **Hospital Management System** to streamline hospital operations using Java and Spring Boot.
- Implemented modules for **patient registration, doctor management, appointment booking, medical records, prescriptions, and billing** through RESTful APIs.
- Enhanced the application with **JWT authentication, email notifications, input validation, exception handling, and an admin dashboard** for secure and efficient management.

Quick-Talk – Real-Time Chat Application

Tech Stack : Node.js, Express, Socket.IO, EJS

- Built a browser- based real- time chat application where multiple users can join, communicate, and receive instant updates without page reloads.
- Implemented user login with custom usernames, room joining, and message broadcasting to all connected clients. Added features like typing indicators and real- time user presence using Socket.
- Designed a simple and clean UI using EJS templates, optimized for quick interaction.

Ticket-Muse – Multilingual Museum Ticket Booking Website

Tech Stack : HTML, CSS, JavaScript, Node.js, Express, MongoDB

- Developed a multilingual museum website for online ticket booking and visitor information.
- Integrated features like user registration, ticket purchase system, language toggle, and admin dashboard.
- Designed a clean, responsive UI and implemented backend logic to manage real- time data updates.

CERTIFICATION

- Infosys Springboard JAVA

June 23, 2025

ACHIEVEMENTS

- Represented Technocrats Institute of Technology as part of the football team at the Nodal level.
- Led a team in Smart India Hackathon in State Level
